

Connected website

Your website and your tool, working as one.

Your website and your tool, working as one.

Your website is often cut off from the way you run the business: frozen content, enquiries by email, a catalogue you update by hand. The Connected website module links your site to CompanyMesh: editable content, forms that feed the CRM, catalogue and orders kept in sync.

Up-to-date content

Edit your website without a developer.

Enquiries built in

Form submissions land straight in the CRM.

A synchronised catalogue

Products, prices and stock identical everywhere.

A multilingual website

French, Dutch, English and more.

In this module

- 1 Editable content
- 2 Forms linked to the CRM
- 3 Synchronised catalogue and orders
- 4 Multilingual and SEO
- 5 Customer reviews and reassurance

FEATURES

1 Editable content

Update your website on your own.

Pages, sections, menus, news and media are all edited from the platform. Several websites can be managed in one place.

What it enables

- Page and section editing
- Menus and media
- Multiple sites managed
- Preview before publishing

2 Forms linked to the CRM

Every enquiry lands in the right place.

Website forms create leads directly in the CRM, with the source page and campaign, and trigger your automations.

What it enables

- Automatic lead creation
- Source page and campaign
- Spam protection
- Automatic acknowledgement

3 Synchronised catalogue and orders

An online shop that's always accurate.

Products, prices, stock and lead times come from the CompanyMesh catalogue. Orders placed online arrive in the tool together with their payment.

What it enables

- Product and stock synchronisation
- Online orders built in
- Linked payment
- Migration from an existing website

4 Multilingual and SEO

Visible, in all your languages.

Every piece of content exists in several languages with its own URLs. Sitemap, redirects and SEO tags are handled automatically.

What it enables

- Content per language
- Localised URLs
- Redirects
- Sitemap and tags

5 Customer reviews and reassurance

Put trust front and centre.

Your customers' public reviews and your past projects are displayed on the website, always up to date, to reassure your visitors.

What it enables

- Public reviews displayed
- Projects gallery
- Testimonials approved by your customers
- Automatic updates

TAILORED

Adapted to your business

A new bespoke website or an existing one (WordPress, WooCommerce, Shopify...): we connect **your** site as it stands today, and develop it at your pace, without rebuilding everything.

This module never arrives alone

We install it, tune it to your rules and train your teams. And when part of your trade fits no box, we build it.

01

A workshop per profile

At least an hour with every job concerned, to set the screens against real working days.

02

The missing module

A need nobody covers becomes a real module, designed for you and maintained like the rest.

03

Tuning as you go

One more field, one less step, an automation: the tool is adjusted while you use it.

CONNECTORS

Available integrations

Compatible with the tools you already use:

CMS & e-commerce

WordPress

WooCommerce

Shopify

PrestaShop

Webflow

Search visibility

Google Search Console

XML sitemap

Reviews & reputation

Google Business Profile

Non-exhaustive list: other tools can be connected to suit your needs.

Works with

`crm.leads` Prospecting & lead capture

`erp.catalog` Product catalogue

`ops.analytics` Sovereign web analytics

`auto.api` API & connectors

`auto.ai` Built-in AI

Let's talk about your future tool
